Secrets Of Singing

SECRETS OF *Singing*

BY WILLIAM ERNEST ROSS

Synopsis

There are basically two ways that people sing, the natural way and the normal way. The natural way may be defined as singing that is free from any conscious physical or mental effort. The normal way may be defined as the way singing ought to be done to reach certain goals or objectives. Most people sing the natural way. How well they sing is dependent on their physical endowments, their musical talent, and their environment. Some individuals are endowed with superior vocal equipment and great musical talent, a few are almost entirely lacking in these characteristics, but the great majority have an average amount of musical ability.
