But turmoil is building, both inside the walls of Samaris and outside where a violent attack takes the Reds by surprise... and nothing in all of the Territories will ever be the same again. An alternate world where nations are divided on the basis of the color of its inhabitants: Chromes | A world where everyone wears masks, superstitions abound, and mysterious creatures called the Harlequins exist | Divided by greed and power, ignorance and fear, the world of Chromes can only be united by the brave and true of heart | The Red Harlequin! www.theredharlequin.com

Customer Reviews

It is very well written. Asheva goes from naive to discovering deceit and lies. It is a fantasy book that resembles very much our current world. It is a book that makes you think and you cannot avoid find similarities with certain governments. I love the way the author makes you discover new things through Asheva's eyes.

These are not the world's best-written books, but they entertain. The writing is very uneven: pretty good in some places, cringingly vague and awful in others. Overall, it's about an 8th-grade reading level. They should have marketed these as children's fiction, it definitely isn't "adult"-level material. Nevertheless, for idle reading, it's alright. And it's only \$2.99 per installment.

I have read through Book 4. Quick read and good for younger readers. I am not much into the fantasy thing but the symbolism in this series is, if one reads correctly, rather interesting. I will probably read the finale but to be honest, I would recommend for younger readers (16 to 30)

Something different
