Customer Reviews

Only the first verse is included, and several of them are missing the bridge and other essential parts of the song. It's unfortunate because I really like the selection of songs here. I have moved on to The Daily Ukulele now- I want to be able to sing along and that is difficult when most of the words are missing!

Easy to learn good for beginners

Nice ukulele book. You can find the songs online but for me its nice to have a book right in front of you to reference.

Nice collection of songs!

love this uku book

God awful and oversimplified melodies that leave you singing out of key most of the time. Pages are easy to read but the chords are often so far off from what the song actually sounds like that it is a total waste of money buying these books. I have had to go to other books or on line to find better transcriptions for the uke to make these work. So....I will not spend any more money here when I can get what I need and want for free elsewhere

i love this book!
