Hope: An International Human Becoming Perspective (National League For Nursing Series)

Synopsis

The goal of this book is to provide the reader with the research findings from international qualitative human science studies on hope conducted in nine countries including Australia, Canada, Finland, Italy, Japan, Sweden, Taiwan, the United Kingdom, and the United States. All these studies were guided by the human becoming theory and were conducted using the Parse research methodology. The findings from these qualitative research studies enhance the knowledge base on the phenomenon of hope, shed new light on its meaning, and expand understanding of human becoming theory.
