Customer Reviews

Book by

Got this for review prior to my LPC exam just for an overview of techniques, theories (and statistics) that I don't use too much in my daily practice. Very helpful for studying, thorough, and infinitely helpful in seeking license. Recommend this for a starting point when one needs to remember and memorize a lot of theoretical principles in an organized manner.

Product was in very good condition. I received this in very good time and will refer this site to others. Especially for looking for materials that seem hard to find. Thank you

The book is obviously dated (I have the 1985 edition) but it gives some great insights into Christian Psychology. Good reference book to have for a few dollars.
