The pictures are very nice, printed on one side of the page only, and the pencils are of pretty good quality. Even included a pencil sharpener and a cool Fireplace/Music CD perfect for background mood music. The drawings are detailed but not so detailed as to be frustrating. The packaging is designed so you can use the package as the surface to color your chosen picture on, there is a cardboard page separator which stops bleed-thru if you use markers instead of pencils, and the pages are super easy to tear out as well. I have several sets by this same company and I just love them all!!!

Gave as a gift to my daughter and she loves it! Her husband and her are fighting over who will color each page.

I love the music and the pictures! I'd buy it as a gift for a friend or family member. Very good quality too!

This is a great package together for a present. I'm assuming the receiver enjoyed it! It was very nicely packaged and the pictures and pencils looked to be good quality and fun!

Love this book and the images to color!

This is an OK item. I should have known from the low price but the colored pencils are pretty low quality and the drawings basic. I would say this is more appropriate for a kid than for an adult colorer.

no probs.. pencils a little lame. great to leave in the car

Outstanding
