Shells Of Florida-Gulf Of Mexico: A Beachcomberâ€™s Guide To Coastal Areas

Synopsis

"This colorful, educational guide is an excellent resource for identifying the shells, common sea beans and other coastal drift found in beach, lagoon and bay habitats. Great for all ages and is perfect for anyone who enjoys the coastal areas whether briefly visiting the beach to nature enthusiasts and beachcombers. This conveniently sized guide features photographs grouped by color of some of Florida's common, uncommon and highly sought shelled animals. Other aquatic coastal animals are also included, plus important information about the wrack line and the coastal drift treasures hidden there. Common and scientific names, shell ranges, maximum sizes, and other features are described in this guide. Field identification assistance and educational tips are also presented. This pocket-sized, 12-panel, laminated, waterproof guide is great for outdoor coastal experiences."

Customer Reviews

This plasticized, folded array of shells was the perfect gift for my granddaughter who will be visiting that area in December. She sat right down and began studying the photos and loves that she can carry it to the beach safely. A handbook that will get a lot of use and yet not be damaged by the sand or water.

Hostest gift. She loved it.

I bought this for a young woman who is moving to FL and it is perfect. Lamination is well sealed and

colors are vibrant with clear close ups of the shells.

nice laminated waterproof fold up with pictures of shells and a little info about them, since it's waterproof you can take it with you on your shell excursion

This will be great to take on an upcoming beach trip! And with it laminated no worries about the water hurting it !

Excellent, laminated, fold-out guide to identify sea shells while actually on the beach. Very light weight and a small enough guide to easily carry with you on beach outings, also sturdy and waterproof. Easy to clean after each use.

Very handy on the beach. Waterproofing especially good since the kids would lay it down in the sand as they checked their shells.

Great little information item. Grandkids used it on the beach to ID the shells they pick up. Plastic covered and cleans up with simple wipe of a damp cloth.
