will be useful when your done nursing.

This has been the biggest headache throughout this class. It is heavily relied on in my class and there have been many questions identified that have been flat out wrong on this website. My instructor submitted a ticket into LWW and it has been over a month with nothing fixed. My teacher is having to go through and fix our grades, which does not help our actual learning at all. I'm extremely disappointed as I had been looking forward to this class. We're only halfway through, so I get to look forward to another 8 weeks of poorly worded questions and wrong answers. Incase LWW actually reads this - recombinant DNA has been used to make insulin, please fix that one at least!
