Customer Reviews

An excellent primer for investing in tax lien certificates. Easy to read and very well written. Tax lien certificates made easy! Highly recommend!

I found this short intro to tax lien certificates to be better than a few others that I've read, but it felt lacking regarding the individual state information. Maybe I'm just naive but there was nothing mentioned for VA or NC (and others). Also, I'm sure it's great advice to not buy when the owed taxes to market value is above X percent, but there was no reasoning with it. All in all, a good quick read.

This book is an excellent source of information on Tax Liens Certificates. The information and strategies are clear and concise. This book is easy and quick to read. He doesn't waste your time; I love that!
