The Tutankhamun Prophecies: The Sacred Secret Of The Maya, Egyptians, And Freemasons

Synopsis

Reveals the common origins of the ancient Egyptian and Mayan civilizations. Shows how these cultures had the ability to gaze into the heavens to predict the future unfolding of humanity and their place within the cosmic order. The author's revelations about the Freemasons' connection to this ancient knowledge generated a firestorm of controversy in Europe. By the author of the bestseller *The Mayan Prophecies*. Maurice Cotterell's background as a scientist, mathematician, and engineer helped him to decipher the code of the ancient Maya, revealing the mystery of their science and religion to an extent never before possible. Using the same techniques, the author turns his attention here to deciphering the secrets encoded within the tomb of Tutankhamun. His extensive research revealed that both the ancient Egyptians and the Maya possessed a sophisticated understanding of sun spot activity and other astronomical phenomena--facts recently confirmed by modern science. Knowledge of the connections between solar patterns and human destiny allowed the Egyptians and Maya to harness the energy generated by the sun to achieve spiritual enlightenment and soul growth. The link between reincarnation and solar energy encoded in the tombs of Tutankhamun and the Mayan Lord Pacal is a jealously guarded secret held by a select number of occult groups, including the higher orders of Freemasonry. The author unleashed a firestorm of controversy in Europe when he exposed much of the esoteric knowledge of the Freemasons, including one of the society's most carefully concealed secrets: incarnate gods like Lord Pacal and Tutankhamun have come to earth to help humans achieve spiritual enlightenment, soul growth, and individual realization as solar beings.

"Some may find the author's metaphysical musings humorous, while others may believe that the secret language of humanity's purpose has finally been deciphered." (Chris Lorenz, Dell Magazines, August 2002)"One of the most amazing books I have ever read." (Colin Wilson, author of The Outsider)

ANCIENT EGYPT / MAYAN STUDIES "One of the most amazing books I have ever read." --Colin Wilson, author of The Outsider Maurice Cotterell's background as a scientist, mathematician, and engineer helped him to decipher the code of the ancient Maya, revealing the mystery of their science and religion to an extent never before possible. MAURICE COTTERELL, a mathematician and scientist formerly at the Cranfield Institute of Technology, was awarded in 1992 the Voluntariado Cultural medal for his contributions to Mexican culture. He is the author of the international bestsellers The Mayan Prophecies and The Supergods. He lives in England.

I may not agree with everything that Maurice Cotterell says, but because of his painstaking research, the way he cracked the code of the Maya was Brilliant!No one before him was ever able to see the Amazing Hidden Images in The Lid of Palenque. Not even Erich von D  niken, who claimed it was a spaceship, could see what was really there. Maurice deserves accolades for his hard work.Anyone visiting YouTube will find plenty of videos on Maurice Cotterell that will inspire you to want to buy this book.And the Color Plates are Beautiful.

It is amazing to see what the ancient people knew about the sun and solar cycles and how they have an effect on us. It was important knowledge for them and is for us in modern times. Maurice Cotterell has unlocked the mysteries of the ancients and is more than willing to share the knowledge. I have read several of his books and this is one of my favorites.

I read parts of The Tutankhamen Prophecies in book stores and was fascinated and always remembered it. Years later I searched for it online and I found a great deal and had to order it. I was really excited to receive it. It's a must have in any New Age collection. It explores in depth the connections between the Maya the Egyptians and the Freemasons. All in all a very good read.
