Roman Provincial Coinage III: Nerva, Trajan And Hadrian (AD 96-138)

Synopsis

The latest volume of this highly regarded series presents for the first time an authoritative and systematic account of the coins minted in the Roman provinces during the period from the accession of Nerva in AD 96 to the death of Hadrian in AD 138 and includes the three reigns of Nerva (AD 96â “98), Trajan (AD 98â “117) and Hadrian (AD 117â “38). The book gives a complete picture of the material, thereby not only meeting the needs of numismatists but also providing an essential reference for historians, archaeologists and other students of the Roman Empire. The introductory essays and extensive catalogue section are followed by indexes and an illustration of every major issue listed. The book catalogues over 50,000 coins classified into 7,000 main varieties from the worldâ™s principal collections, including the British Museum and BibliothÃ“que nationale de France. These were minted at 300 cities located throughout the eastern part of the Roman Empire, from Apollonia in Albania to Trapezus in Turkey and from Tomi in Romania to Alexandria in Egypt. The catalogue includes the extensive coinages made by the cities of the Roman province of Asia and the complex coinage from Alexandria in Egypt. Consequently, it will be an essential reference for numismatists, historians and archaeologists as well as all students of the Roman Empire.

Customer Reviews

The 3rd installment in the definitive series is THE penultimate reference of Roman Provincial Coin types covering Nerva, Trajan and Hadrian. Great plates and sharp life size pictures in black and white -- best for identification without the distracting color. It is not a glom worthy overlarge color

photo catalog but a professional and complete academic survey of coins. Coins are listed by city then by emperor. If you collect, study, or need field identification in the archaeology of Roman Provincial coins this is a must buy. Book was new and much less expensive than buying from a specialty dealer.
