Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Great map, but for me, and probably most travelers, the "East China" one was sufficient. I had both and only used the "East China" one while in China, but did consult this one before the trip.

Quality is great but I needed a map of China all on one side, not half of China on the back side, so I could hang it on the wall in my classroom.

Very detailed cities, towns, and highways, but its nearly impossible to find the rivers. It doesn't show the Three Gorges Dam.

Disappointing as it's base data was 2008 but republished in 2011. Not up-to-date as the topography was changed with the flooding of the Yangtze in 2009. Don't bother to purchase this map. I wish I had not bought this for my trip to China, wait to get one there.

We purchased for our upcoming trip to China. This map gave us a good look at the country and provinces.

This map is clear, easy to read and durable. China is such a large country that having a detailed, yet clear overview is extremely helpful.

Bought for my dad who was there in WWII...he enjoyed looking at the areas he was in,,,,,but I will keep looking for WWII maps for sale.

Very detailed and informative map.
