Sketch Workshop: Characters

Synopsis

The Sketch Workshop is 3DTotal Publishing's answer to the question "Why can't I draw like that?" Designed for beginners and hobbyists, it's a fun and innovative way for people of all ages to find the inspiration to pick up a pencil and draw. It is different from our other books in that it is 50 percent a workbook in which you draw and 50 percent a project guide with instructional text and reference images for drawing characters. Created by a number of top industry artists who share their tips and tricks and help you grasp the fundamental elements needed to craft beautiful sketches.

Customer Reviews

a very good buy with some great art practice pages that are open ended enough to still give you a chance to experiment and be creative

The recipient totally loved it! Carried it around everywhere!

Good

amazing

Thanks

Excellent buy and would encourage other artists to purchase it as well.

Good to use for teaching.

I bought pretty much all of these out of curiosity and just general interest to improve my skills. And as much as I am sure they are useful to someone at a different level of skill, they aren't very useful to me, since I have been drawing for a long time. I wouldn't recommend this to art students of college age either, or hobbyists with experience, since the drawings are pretty much done for you. This might be great for high school student age children or younger. But who knows maybe these workbooks will work for you. They don't show you interiors of the very very thin workbooks to see what kind of workbook you're going to get. I wish that that had been up on before I bought it, I do feel very ripped off as a result. Drawings on the inside are average level, but I'm not saying the artists aren't more talented than average, just that the delivery to "teach" was very average looking. And as I said before, the drawings are already done for you in blue line so you can draw over them. I wish I had seen Parka's video and review before I purchased. I might copy paste this review again on a couple of the other workshop book as this is the same review I had for all of the ones I bought. I think people should know.
