## Customer Reviews

Thorough and practical guidance for the sleep-challenged.

I was having a terrible time with insomnia in 1994/5. I read every article I could find, and several books. All suggested about the same "sleep hygiene" methods of sleeping better. Finally I found this book which discussed better attitudes towards sleep, and what worked for me...temporary sleep deprivation, and I haven't had much of a problem since. I've recommended it to others, and most of them were helped too.
