E-Cigarettes 102: DIY E-Liquid (E-Cigarettes 101)

Synopsis

Make Your Own E-Liquid and Take Control Mixing your own e-liquid is fun and easy - and saves money, too. You can make great-tasting e-liquids for about \$2 per 30ml bottle. Think you're too busy? With the author's unusual two-stage approach, you can slap together the week's supply of e-liquid in minutes. And do it more safely than the one-stage method. Dangerous high nicotine concentrates are completely optional. Nothing affects your enjoyment of vaping more than a delicious e-liquid with just the right flavor, nicotine level, throat hit, and vapor production. Great hardware can't overcome a foul-flavored e-liquid. Most vapers soon have a collection of dusty e-juice rejects. Being picky goes beyond flavor. With DIY (do-it-yourself) e-liquid, you control what goes into your lungs. E-Cigarettes 102 covers your options and risks in making a healthy vape. Flavored e-liquids are a favored target of hostile regulation. Recent proposals tried to ban flavored e-liquids in New York and elsewhere. With DIY e-liquid, you can assure your own supply of great-tasting e-liquid, despite what regulators do. E-Cigarettes 102 is the missing guidebook to help you explore DIY with confidence. It covers:

- get started in minutes.
- Advanced DIY
- how to develop your own recipes.
- DIY math explained
- plus a DIY calculator companion to the book.
- Understand your options
- the bases, the nicotine, the flavors, the risks.
- Tool up
- sample shopping carts and the tools you need.
- The low-down
- on steeping and e-liquid base alternatives.
- 25 favorite DIY recipes from the author and guest DIY-ers. Illustrated.

Appendices provide a glossary and Internet links. If you've ever found yourself being picky about your e-liquid, you owe it to yourself to try this rewarding craft. Scroll up and try the book today. Great book. Not too hard to understand!

Book has a lot of good information for beginners

OUTSTANDING read!!! Being new to vaping, this was a great way to start understanding the in's and out's of DIY e-liquid. Have 101 and 102, please come out with 103!!! Will be trying out some of the recipes included. If the ones I am working on pan out, will forward as well. Thanks!

Keep in mind this book is pretty dated. The general info is spot on though.
