'This textbook provides a clearly written, concise introduction to the modern Middle East. Short, easy-to-digest pieces are augmented by textbooks and maps, exploring all aspects of the region from politics and government, to history, geography, and various cultural perspectives. While

perhaps too advanced for some high school students, this book would find a home in Advanced Placement or International Baccalaureate classes or libraries meant to support them, and is also suitable for many university level survey courses on the Middle East.'

Dr. Dona J. Stewart is adjunct professor at the National Defense University's Near East South Asia Center for Strategic Studies. Formerly she directed the Middle East Institute, at Georgia State University (US). She was a Fulbright scholar in Jordan and student at the American University in Cairo.

This book is very easy to understand. Everything is laid out nicely. The Kindle rental price is great, too. I already had the physical book, but rented the Kindle version for this semester of college because it was so cheap.

Needed for college now I can study.

A very informational text that combined information on Islam with information on the region ethnically, geographically and politically.

good price on rental

Everything is the White Man and the West's fault. That's what I got out of this book that we used for my Political Science class.....

Exactly as described.

While this book gives a decent overview (albeit dated and incredibly biased) of geography, history, religion, culture, politics, and current affairs in the Middle East and North Africa, the plethora of grammatical errors and poorly constructed text makes comprehension quite difficult.

It is now (2015) a dated book as well as being full of grammatical errors and difficult to read. There are many better books on this topic.
