According to PW, dialogue and excerpts from speeches and writings are woven into thorough accounts of the private lives of four pivotal civil rights leaders for a "balanced and substantive" look at their lives and contributions. Ages 10-up. Copyright 1996 Reed Business Information, Inc.

Grade 6 Up-Black history in America began in 1619 with the importation of 20 Africans as bound servants. It has continued through the centuries, and is vividly reflected here in the lives of the four men of the title. Even though all were remarkable individuals, Archer takes into account their human frailties and depicts them as believable figures. A first and final chapter fill in the eras of American black history not covered in the biographies. The injustice inflicted on people of African descent in America is described in some biting words throughout the text. Some controversial statements are undocumented and may leave readers skeptical or misinformed. For example, Abraham Lincoln is depicted as a racist; George Bush is repeatedly accused of running a racist campaign in 1988. While Archer writes in a fluent, sophisticated, but readable style, this flaw will limit the book's use as a resource for reports. New insight on our great leaders of yesterday and the impact that is still felt today.

Brought 3 books for my grandkids - they all love it!

This book came in very handy for my Civil Rights paper in college. Found out a lot about the Civil Rights Movement through this book.

This book has given me a broader look into the life and times of blacks in America. It has encouraged me to get a more indepth perspective of our contribution to this country and why it is more-often-than-not completely ignored.

I am very grateful with you for the attentions with me!.
