# Beyond The Back Yard: Train Your Dog To Listen Anytime, Anywhere!

## Synopsis

Foreword by: Ian Dunbar Subject Matter: You are a dedicated pet owner who has put considerable time and energy into training your dog. As a result, your dog has a reliable set of behaviors such as sit, down, stay and a recall - under pristine conditions. But now you're stumped; you're not too sure how to get those behaviors away from home and off leash - in short; when you really need cooperation! This book will help you gain cooperation under a range of circumstances and with only about ten minutes of training time per day! This book will take you through a systematic and comprehensive plan to get you where you want to be; with a reliable companion who cooperates off leash, away from home and....when other things are going on around you! This book has been split into three parts: The first part is educational. It provides information about the theory and philosophy of training. This section will be valuable for everyone, but especially if you're the kind of person who likes to know why you're doing something a certain way before you do it. The second part is practical. It's the "how-to" part of the book. Here, Denise lays out the plan you'll be following to help your dog respond to your cues even when the world is exciting or you don't have cookies. This portion is extremely systematic and specific. Finally, the third part is problem-solving. It will help you troubleshoot any issues that arise. In addition, if you find that you really enjoyed the training process, it will guide you in finding more opportunities for you and your dog! Check out a video example of the author working with her 2 year old dog, Brito:

Best Sellers Rank: #123,632 in Books (See Top 100 in Books) #216 in Books > Crafts, Hobbies & Home > Pets & Animal Care > Dogs > Training

## Customer Reviews

Born into a "dog family," Denise Fenzi started training and competing in dog sports over 35 years

ago! Over that period of time, she found kinder and gentler ways to approach dog training, and now she is well known for her effective and humane techniques for gaining cooperation from all types of dogs. Denise has also been very successful in competition, as evidenced by two American Obedience Champions and many other competition titles from a variety of dog sports. Denise's first series of books, "Dog Sports Skills," co-written with Deb Jones, has been wildly successful! All three books have won the Maxwell award for Best Behavior and Training book - one award each year! Her latest books, Beyond The Backyard, Train Your Dog to Listen Anytime, Anywhere! and Blogger Dog, Brito! are already receiving acclaim from those within and outside the dog community. Denise owns and operates Fenzi Dog Sports Academy, a large and well regarded online dog training school. You can learn more about the academy here: [www.fenzidogsportsacademy.com](http://www.fenzidogsportsacademy.com)

Attention Trainers!! Are you looking for a book to recommend to your pet training clients? I highly recommend this one!! In this book, Ms. Fenzi goes beyond, "hold a treat over the dog's head and give it to him when he sits" to discuss how to make trained behaviors happen in everyday life situations. This is the "missing link" for so many who attend introductory dog training classes, especially when they don't go on to sports and other activities. The book is well written, accessible to the average person, yet full of gems for the more experienced trainer. And it is all from a highly effective positive reinforcement based approach. This one is worth a read, no matter what your training experience level may be!!! And, if you are a dog owner and you say, "my only does (insert behavior) when I have a treat/ball/etc.", then this book is perfect for you!!! Follow the advice of the author in this book and you will take your dog's training to a whole new level!

my granddaughter loves it using it to work with her German Shepherd

Love this book! I have 2 dogs that have focus issues when out hiking. Not quite thru the book but has some pretty good tips.

Great book! I'm halfway through it. My Catahoula mix has gone through basic and advanced obedience training, and has his CGC. This book is helping us fine tune things. I'm already seeing results and I have more to read!

Denise Fenzi hits it out of the park with this one. I've bought all four of her books, but this one, to educate me to civilize our young, strong 70# athletic curly-coated retriever, will be the one I read,

and re-read.

Great ideas, but not a quick fix book. The author states that you have to put some work in if you want a well behaved pup. This book gives you the path to work with your pup.

Denise Fenzi is one of my favorite trainers. This book breaks things down very well to train your dog to work through distractions. It takes work and there is no magic bullet, but many resources made available through this book.

This is a terrific book. I don't care how advanced you are as a trainer, there is always a fresh way to look at things. This book brings a lot of really great recommendations.
