What can I say, it is a school book. Just a stepping stone and a tool in realizing and completing my dream!! So this product is a winner in my book. I can honestly highly recommend this product. I count on reviews when I make purchases, and know that others do the same. I would never want to influence anyone to make a product purchase, which I don't believe is worth buying. If my review is helpful, let me know by checking helpful. This review expresses my real opinion about this product.

I had rented this book for a class where I received an A+ in the class! The book did what it was supposed to do plus I barely opened the book cause I knew a lot of what was in the book already. I opened it maybe 4 times out of the 7 week course. Thank you!

This was really a great deal!

I knew most of the content and felt very comfortable taking the quizzes and tests. I should be finishing the class with a high B, which I will gladly take! Only downside is how long the chapters are. And they are LONG pages.

whoever sold me this book must have taken it out of a litter box, because theres yellow stains and it smells like urine!!!!

I think the book is written with law students in mind. Just keep in mind criminal justice students are not all going to law school. Some areas in the book could have just been simpler

Very informative for any criminal law goer. Had to use it for a criminal law class. It's a bit "boring" just because it is a textbook and not a sci fi fantasy novel of course.

It wasn't in the best condition when it came but I didn't have to buy it so that was nice. Recommend this for students!
