Gives manager good tool to use. I was able to learn interesting (mostly common sense) but gives a set of tool to effectively do the job.

Great book...love it...

AmazingStrong strong basement for future studies...Build the pillars with it and you can build anything....Thanks to HBR

This book was a textbook for a required class on management in my graduate school program. Overall, I felt it had good advice for new managers. Some of it, I disagreed with (for example, telling people who get interrupted in meetings it's their fault for not having thorough knowledge of the business) and some didn't mesh well with my own management experience. Even so, it's a good resource for managers and gave me plenty to think about.

Great resource for not only new managers but existing ones. Lots of great ideas for those who want to become a transformational leader.

Great book!

good book of new manager's
