Customer Reviews

Barbara Wells (Oxford, MS) is dean and professor at the University of Mississippi School of Pharmacy and executive director of the Research Institute of Pharmaceutical Sciences. Terry Schwinghammer (Oxford, MS) joined the faculty of the University of Mississippi in August 2005 as Professor and Chair of the Department of Clinical Pharmacy. In addition to authoring over 60 research papers and journal articles, he is editor of The Pharmacotherapy Casebook. Joe DiPiro (Charleston, SC) is Professor and Executive Dean of the South Carolina College of Pharmacy, an

integrated program of the Colleges of Pharmacy of the University of South Carolina and the Medical University of South Carolina.

I bought this handbook during my third year of pharmacy school and wish I had bought it sooner. The chapters are nicely summarized and short. I read this prior to reading the DiPiro textbook, so that I would have a nice overview prior to diving into details. I read each chapter again prior to quizzes and exams. They contain all the pertinent info, as well as some very helpful charts. I continued to reference it during my 4th year APPE rotations, and brought it along with me to my PGY1 residency. This handbook is GOLD!

As a pharmacy student on rotations, this has been especially helpful. Although it's not entirely updated on recent guidelines, it is perfect for a refresher whenever I have topic discussions with my preceptors. It is organized and you can read up on an entire disease state within 10 minutes.

Good quick handbook to understanding the various topics from the actual Pharmacotherapy book. Provides relevant clinical information and handy for rotations, however it may be heavy to carry in white lab coat. Provides quick review to certain topics that you may not understand or do not have enough time to read the actual book.

possibly one of the best books I bought for PA school. You will need this, it will save your butt and you will be happy you bought it.

Dear Pharmacotherapy Handbook 9th edition,I love you. I'm going to buy a gratitude stole and drape it over your paper back when I earn my PharmD. You have the old lipid guidelines in you, but every relationship has flaws. I especially love your tables and your clearly-stated goals of therapy. Thank you for being there for me during infectious disease. If it were professional to do so, I'd cover you with Lisa Frank glitter heart stickers.xoxoxoxoxo,MC

In pharmacy this little books gives you all the quick information you need. It wont have all the info but a quick reference will usually answer the question you are looking for or point you in the direction you need to go.

Awesome company to order from. Product is exactly what is described.

I enjoy the content of the book. Unfortunately, I have used it only a handful of times and the pages just fall out. Not worth purchasing in paperback form.
