Pocket Guide Insects Of East Africa

DINO J. MARTINS

Synopsis

Insects have a greater impact on human lives and livelihoods than any other group of organisms. This guide will help you to identify insects that are frequently encountered, very striking or ecologically important in the region. Compact and easy-to-use, it features more than 400 of the interesting and diverse insect groups found in Uganda, Kenya, Tanzania, Rwanda and Burundi. Full-colour photographs of all featured species are accompanied by concise text giving key identification features for each group.

Customer Reviews

Bought this for our recent trip to Burundi, East Africa. It was such a hit with our family there that we left it with them for future reference. Nice photos, arranged in a manner that was very practical and intuitive to use.

The book gives an overview but is very general in the end: in the number of species (often genus

only) and in the description. Depends of what you need of course, but it won't help you to determine species if that were your goal.

great reference
