"His chapters on â⠬ªleadership, strategic â⠬Šcommunications, andâ⠬ª innovation are also useful words for all military leaders."à ¿Â Parametersà ¿Â Coalition warfare, whether based on established alliances such as NATO, or so-called coalitions of the willing like that against the Islamic State (ISIS) group, continue to be the order of the day and appear to be Canadaà ¿Â s preferred method for sending forces off to what we rightly or wrongly call à ¿Â warà ¿Â these days. This highly engaging account of one manà ¿Â s approach to this type of generalship (or more accurately the art of the admiral) is both timely and a very worthwhile read.ÿ Ã¿Â Canadian Naval Reviewÿ Stavridis says he wants to show the reader not what happened during his four years, but rather why it happened. He proceeds to take the reader on a tour of challenges: from the toppling of Qadhafi to the civil war in Syria, Israeli security, a resurgent Russia, the Balkans, and finally, of course, Afghanistan. Thus the first few chapters are a whirlwind of individuals, meetings, and events. Among all this, he often pauses within chapters to highlight some of the more important senior military and political officials that make up the NATO alliance. His new memoir is a refreshing dose of honesty, intelligence, and reflectionà ¿Â much needed in todayà ¿Â s Navy and tomorrowà ¿Â s leaders. à ¿Â Ã Â¿Â Naval War College Review à ¿Â First, Stavridis provides valuable historical perspective of the major conflicts that occurred or were ongoing during his time at the helm of NATO/EUCOM. Second, he shares his views on strategic leadership to include the advantages and pitfalls that come with Twitter, Facebook, and the other tools of a more interconnected world. Fans of Admiral Stavridisà ¿Â s previous works are surely going to enjoy The Accidental Admiral. For new readers, it can serve as a valuable introduction that will then pull them toward his other works. ÃÂÂÂÂ ÂÂÂÂ Naval Historical Foundation "StavridisÃÂÂÂÂ perspective on how he arrived as the first admiral to ever hold the senior position at NATO proves

interesting. After taking command in 2009, he recounts in six chapters his most pressing challenges. He does this primarily through a geographical lens with chapters focused on Afghanistan, Libya, Syria, the Balkans, Israel, and Russia. In each chapter he paints a candid picture from a strategic leaderà ¿Â s viewpoint on how he approached the problems he encountered in each region. After the historical tour of challenges, he shifts to a discussion of leadership in a broader sense. There are five chapters on various aspects of leadership. Most of these leadership tents are valid, not just at the four-star military level, but to all leaders.à ¿Â Military Review

Adm. James Stavridis, USN (Ret.) is a 1976 distinguished graduate of the U.S. Naval Academy who spent over 35 years on active service in the Navy. He commanded destroyers and a carrier strike group in combat and served for seven years as a four-star admiral, including nearly four years as the first Navy officer chosen as Supreme Allied Commander for Global Operations at NATO. After retiring from the Navy he was named the dean of The Fletcher School of Law and Diplomacy at Tufts University in 2013. In addition, he currently serves as the U.S. Naval Institute's Chair of the Board of Directors. He has written articles on global security issues for The New York Times, The Washington Post, Atlantic Magazine, Naval War College Review, and Proceedings and is the author or co-author of several books, including Command at Sea 6th Ed. and Destroyer Captain.
