# Willie's Redneck Time Machine: 1 (Be Your Own Duck Commander)

## Synopsis

In this four-book juvenile fiction series featuring the popular Robertson family of Duck Commander and written by Phil's grandson John Luke Robertson (with Travis Thrasher), readers are invited to participate in the zany fun of the Duck Commander world. After a few chapters, readers can choose to go down different paths—all filled with humor and life lessons. In this volume, Willie finds a mysterious wooden crate in the Duck Commander warehouse. Only John Luke is around, so the two of them open up the box and find a strange device. It turns out it's a time machine that looks a bit like an outhouse. Willie and John Luke test out the machine and find themselves journeying back and forth in time. They have crazy adventures but know they need to make it back to West Monroe. But will they make the right choices to get back at the right time?

## Customer Reviews

Who are you? Willie Jess Robertson, president of Duck Commander and Buck Commander. You manufacture duck call and decoys. You are married to Korie and have five children. Rub your imaginary beard and start the adventure. You have just received an order for 10,000 duck calls. It is

also Korie's birthday party tonight and you still need to buy her a present. Wait a minute! What is that outhouse doing in the middle of the warehouse floor? Who is playing a trick on you? John Luke, one of your sons, comes in at that moment. He figures out how to open the door and then disappears inside! What are you going to do? Your first choices are to step inside the outhouse or wait outside to see who is playing a trick on you. Although this book is well written and provides a LOT of different options throughout the book, a few of which were amusing, I was honestly not that impressed. For a book targeted towards 8-12 year olds I thought that many of the situations presented were a little too old for them. Willie often makes comments about making sure he gets the right gift for Korie or he'll never hear the last of it. One option will take you back to 1990 to the night of the Prom where Korie is dancing with John Luke thinking it is Willie. In other options you will head back to 1863 or forward to 2038 and 2319. Some of the endings, in my opinion, were rather pathetic. John Luke's story, The Morning Fog, presented at the end of the book, directs the reader towards God and is well done. I probably should add here that I have never watched Duck Dynasty BUT the kids and I have read many different "option" books which were truly great adventures. This one was not!

I was totally expecting this to be lame, to tell the truth. I've seen all of one, maybe two, episodes of the show. I'm sure if you love the show, you'd be a lot more into this, but honestly, this could have used fictional characters and still be just as fun. I didn't realize when I started that this is a choose-your-own-adventure. I haven't seen one of those books since my childhood! The book started out super basic, and, well, yeah, kinda lame. Exactly what I was expecting. But then, it was choose your own adventure! That quickly turned this into a riot. I imagine I'll eventually end up with the whole series. This is one time the Kindle is actually a great format for the book. No turning to a particular page and possibly seeing something you shouldn't in the meanwhile - you just click the option you want and you're there as fast as a page turn! Silly, strange, bizarre, there's not much here kids won't like. Good fun. 4 stars.

This is a "choose your own adventure" story, written to the reader in a second person point of view. The narrator tells you that you are Willie, married to Kori and father of two children. I thought that was a little awkward since the audience seems to be aimed towards young boys. I think making Willie's son, John Luke, as the main character would have made more sense. However, my children didn't seem too bothered by it. The story was simple and had a "Back to the Future" feel to it. There are pop culture references that your kids may or

may not get. Overall, this is a clean and, at times, humorous story. My kids really enjoyed the ability to decide where the story should go next. It was interesting enough to keep their attention.

What I liked: I loved the CYOA books when I was a middle-grader and couldn't help but to enjoy this one as well. I enjoyed several of the stories and had a lot of fun choosing different directions and winding up in all sorts of eras and situations. What I didn't like: I didn't love that the book seemed to be talking at me but my son read it and that didn't seem to bother him at all. I also felt a bit out of place. This is definitely a boy book, written for boys. It speaks to them not only about what it's like to be a man but how to treat others. Overall, I'd recommend this book to 4th-8th grade boys.

It was a funny book

This book is fun! I really enjoyed how you get to pick what happens in the story. And you can go back and do it over and change what happens so it's a completely different story.

There is a choose your own path thing in it and it is very fun. I recommend this book for duck dynasty fans and for kids 8+

dont have it
