Fish & Chips

Synopsis

Cut & Run Series Book Three: Sequel to Sticks & Stones Special Agents Ty Grady and Zane Garrett are back on the job, settled into a personal and professional relationship built on fierce protectiveness and blistering passion. Now they're assigned to impersonate two members of an international smuggling ring-an out-and-proud married couple-on a Christmas cruise in the Caribbean. As their boss says, surely they'd rather kiss each other than be shot at, and he has no idea how right he is. Portraying the wealthy criminals requires a particular change in attitude from Ty and Zane while dealing with the frustrating waiting game that is their assignment. As it begins to affect how they treat each other in private, they realize there's more to being partners than watching each other's backs, and when the case takes an unexpected turn and threatens Ty's life, he and Zane will have to navigate seas of white lies and stormy secrets, including some of their own.

Best Sellers Rank: #154 in Books > Audible Audiobooks > Fiction & Literature > Erotica #657 in Books > Audible Audiobooks > Romance > Suspense #1640 in Books > Gay & Lesbian > Literature & Fiction > Fiction > Gay

Customer Reviews

Ok, so thanks to the authors for basically throwing out any hope of getting work done and a social life till I finish these books. I thought I was going to be reading suspense novels, and I am but not in the way I thought. Ty and Zane's romance is intoxicating. It feels genuine, yes over the top at times, but after reading I look at my own fiancé with this overwhelming feeling of love because I see ourselves similar in many ways to the ways these two characters love each other. Now of the 3 I have read, this is the most light hearted of them, a bit more comical then the other ones but I still enjoyed it very much. It's also a great stimulant for your sex life too with all the sexual tension and

great description. Only complaint? Their covers were hard for me to imagine simply because they are described as covered in scars, including bullet wounds. The guys they were pretending to be didn't seem like they would be as badass as I feel Ty and Zane would look. Though it did say Del and Corbin were adrenaline junkies. Alas, I am on to the next. Based on the title Divide and Conquer I am HOPING this is not the typical part in most series where they break up and find their way back to each other....always my least favorite parts.

Totally in love with Ty and Zane....one of the BEST partnerships/relationships in any novel out there (hetero-, same-sex, etc etc etc). They are the best. I laugh, I cry (not so much in this novel, thankfully, but Touch & Geaux seriously had me tearing up), I cringe when angst is thrown their way, and the thrill/mystery and suspense about the situations they find themselves in is just the icing on the cake. I devoured all 9 books in record time, and still want more....so I started back at the beginning.

I was somewhat let down by this book in the series. I thought the premise was just perfect! Ty and Zane having to 'act' like an open and proud gay couple? Awesome! We will really get to see some good acting from the two of them. Handholding, kissing, cuddling, just some really good PDA. But we really didn't get that. To some degree, sure. But overall they were still so hesitant to touch. I thought they'd really take their undercover job to the extreme... or at least have some fun with it. It was still an exciting time with them and once again we got to dive deeper into Ty and Zane's personalities and issues as individuals. Each book just keeps peeling the layers away from these guys! 3.5 stars!

I love Ty and Zane. I really do. But they can test the patience of a saint. I don't think I've ever read two more stubborn characters. I am truly enjoying them despite my frustration. I love their humor and their passion keeps getting hotter and hotter. This book gave us a glimpse of how they'd be as a couple and they are dynamite. I really needed their relationship to move forward in this book.. it's obvious that they just needed the right catalyst. And what better setup than posing as a real couple. On a cruise ship. Where no one could see them. The connection between them is getting more intense. Their passion burns hot and their longing for each other makes me melt. I love that they can tease each other mercilessly and then attack each other desperately. They get themselves into the craziest dangerous situations but you never for one second doubt that they will be there for each other when it counts. I am falling head over heels for them and can't wait to see what other

craziness is in store for them.

The Cut & Run series is my guilty pleasure. I just say it plainly and this really isn't something one reads for scintillating plot and Fish & Chips fully embodied that notion. The plot was thin. It was fairly implausible, okay - really implausible. Frankly it actually made little sense. Criminals working together in a high dollar operation dealing in art antiquities and rare gems and they don't even know what each other looks like? They've never met? Mmmm I'd certainly trust complete strangers with incriminating evidence that could get me sent up the river not. But it's not about the plot. The plot is just a back drop for the Punch & Judy show (or the Zane & Ty show as the case may be) and I am surprisingly OK with that. Honestly I could read a 1000 page novel based on Ty and Zane running errands. Because yes, they're that damn cute together. F&C, just like the first 2 books in the series is all about the relationship and character development. In this installment, going undercover as an openly gay couple gives Ty the opportunity to really explore where his orientation lies. And despite being bi, he concludes that he does "flamingly gay" pretty well too. He tells Zane he loves him which is awesome and despite his issues both known and hinted at he actually seems to be the more emotionally stable of the 2. Zane has an opportunity to work on his myriad of issues starting with his addictions and also moving on from his past. It was nice to see him keep his wedding ring off. There is grieving and there is pathological grieving and Zane's inability up to that point to reach acceptance and turn towards his future was just unhealthy. There is also a decent amount of hot Zane & Ty sex to make up for the flagrant lack of plot and seriously who needs plot anyway it just interferes with the boys having 1 on 1 time. (Of course there are still a decent amount of near death experiences). Their constant misunderstandings of each other's emotions and intentions is frustrating but then I supposed if we went right to "I love you, I love you too, all our issues are resolved" then we'd be at the end of the series and I don't want to be there yet because this is too much fun.
