Wonderful book for our homeschooling studies/

So glad there are Christian materials like this available.

I have a much older version of this (from 5th grade in the 80s) and it is great, but out of date now. So, I thought I would get an updated one for my kids. But this is very different - many more pages more pictures and more very general information about the countries. I wanted maps. You have to thumb through way too much stuff to see the maps. This makes it difficult to open because the binding is too thick and the book does not open flat or near flat. If you are looking simply for maps of the world, this is not it. I would have returned it, but got too busy and missed the timeframe.
