Customer Reviews

Text: English (translation) Original Language: German

Excellent Guide and a good armchair travel read.

This guide book is a treasure. Having been to the Loire Valley 10 times, this is always a companion as it has excellent photos, schematics and histories of each of the more than 80 castles in the Eastern and Western Loire area. While Michellin has maps and photos their books lack the conciseness and clarity.

This volume is incorrectly listed all over the Internet as being part of the International Geophysics Series. The isbn indeed corresponds to the guide book pictured in this listing, which I wish I would have seen prior to ordering it from another online bookseller. In its own right the guide book looks to be interesting and informative, many colour photos and several diagrams.
