Roget's Thesaurus Of The Bible

Synopsis

Roget's Thesaurus of the Bible uses Roget's fundamental and brilliant category concept, which groups together all related subjects - similar and opposite - for quick and easy comparisons. If you are researching a particular subject, the category list will lead you to the relevant Bible passages. If you are researching a particular passage, the index of Bible verses will lead you to the appropriate category. As a study tool, this resource is unique. Even the browser will be rewarded with the discovery of related subjects and Bible passages for further exploration. Unlike concordances, this book is not tied to the language of any one Bible version. Nor is it based on a particular theological system. The Bible passages in this book are not from any one version of the Bible, but are paraphrases by Colin Day. In compiling the work, the most popular English translations were used - the Revised Standard Version, New International Version, and New American Standard - with references to the original Hebrew and Greek texts.

Book Information

Hardcover: 936 pages

Publisher: Castle Books (November 7, 2008)

Language: English

ISBN-10: 0785817085

ISBN-13: 978-0785817086

Product Dimensions: 6.2 x 2.1 x 9.2 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars 24 customer reviews

Customer Reviews

Using the time-tested categories of Roget to sort over 43,000 biblical references into subject groupings, Day, who worked with the Wycliffe Bible Translators and is the author of books on computer language and usage, has created a unique and very useful reference work. It begins with a category listing by topics, which Day found necessary to add to the standard list. Each Roget category is included in the body of the work, with helpful cross references to other categories. Entries under the categories consist of the author's paraphrase of the cited verses, with side headings that sort the listings into varying areas of interest within the category. The work concludes

with an index to the Bible references as well as a subject index. Because this thesaurus sorts by category rather than specific words from a biblical reference, it works with any translation of the Bible, unlike a concordance. Destined to become a standard in its field, this is highly recommended for all adult reference collections.- Joanna M. Thompson, Bluefield State Coll. Lib., W. Va. Copyright 1992 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

'Most preachers have long valued the concordance, but now we have a quite new and much more powerful tool. In this truly innovative work sermon ideas leap out from every page.' Dr Peter Cotterell, former principal of London Bible College 'A valuable innovation to help understand the meaning of the Bible, this thesaurus brings together concepts from across the Scriptures to stimulate new insights and understanding.' The Rev David Jackman, The Proclamation Trust --This text refers to an out of print or unavailable edition of this title.

This is a great tool to use in Bible Study Much thicker than I expected but I had to keep in mind it is dealing with scripture. Thanks for a great book.

Great idea. So much, however, is left out.

Great reference material.

What can I say? If you want to dig into the Bible, you will love having this tool to work with.

Very happy with seller, will use again!!!

excellent resource.....alraedy helped me with a difficult project.....and it is in better shape than advertised

Good study tool. Great for the person doing more in depth biblical word study! Would recommend this book be added to library.

Great research help, everyone should have a copy.
