Customer Reviews

I've had this book for ten years or more and it is always one that I grab off the shelf for enjoyable playing. This is really a very fine collection of pieces for classical guitar, some of which are not easily found elsewhere (like Giuliani's gorgeous "La Rose" which I've only seen in one other collection). Well edited, good construction, good wearability, this book will last you for years and is worth three times the asking price. 100% recommended!

Very good book for classical guitar advanced players. Has a great variety of music and classical music. Came in pristine condition.

Nice pieces in this collection. All in standard notation. A nice book to add to your collection, as it is in mine.

great book. many great pieces clearly notated and laid out well to read and play.

Great selection of classical music.

Yes man I be got it but why it got name this and other book gets name different same picture OK why? You enjoy play guitar on I do it to OK.

This is a must-have for classical guitarists. There are advanced, standard-repertoire pieces suitable for performance as well as approachable pieces for study - all spanning from the Medieval to the Romantic era. Best of all, the editing and fingerings make the music approachable every level of ability. It does not get better than this.

David Nadal has put together a volume of high quality music for the classical guitar. Included are standard pieces, but also some rarely published gems- my favorite among them being his impressive transcription of a Vivaldi Violin Concerto for solo guitar. This piece alone is well worth the money!
