Customer Reviews

The Alfred's Basic Piano Prep Course book is the perfect addition for any new piano player. These basic piano teaching books are easy to follow, easy to read, and easy to teach. The pages are filled with a good use of white space. The book itself is made of good quality and I do not feel that they will easily deteriorate. I believe that these books by Alfred's Basic Piano Prep are the basic books for piano knowledge and a great place to start a beginner. I have already purchased other of the Alfred's Basic Piano Prep Course books and will continue to purchase from this publisher. I have also steered my student's toward purchasing their own sets of these books to help with practicing outside of the classroom setting. These books will definitely stay around in my teaching library for years to come!! I look forward to seeing what other prep books are written and how they supplement the current books!

My granddaughter's music teacher recommended this book for her and it seems pretty good to me. My granddaughter is only six and she is learning fast. No complaints.

Our 6 year old just started piano lessons and his teacher uses these books. So far, they're great!

Great piano book for the beginner piano player. This book goes well with the lesson, technic, notespeller, and theory books. I highly recommend this book to learn from.

Great beginning method book.

Perfect for young children to learn how to play the piano.

A perfect companion to the Alfred's Basic Piano Prep Course Level A - Four Book Set.

Good companion book to lesson book.
