Shipping Weight: 12.8 ounces (View shipping rates and policies)

Average Customer Review: 3.3 out of 5 stars 23 customer reviews

Best Sellers Rank: #748,938 in Books (See Top 100 in Books) #125 in [Books > Arts & Photography > Drawing > Cartooning > Manga](#) #216 in [Books > Arts & Photography > Drawing > Specific Objects](#) #26510 in [Books > Comics & Graphic Novels](#)

Customer Reviews

Book by Shimohara, Heisuke

Good guide for drawing bodies.

#1. THIS BOOK IS NOT FOR CHILDREN!!! This book has very "descriptive" pictures. If you need examples of how to draw the female body, such as breasts, hips, thighs and bootys this book has plenty for you. There are many pages which shows pictures that could be considered PG-17. This book is good for examples of hair, eyes, lips, and the body. There isn't much "step-by-step" instructions but there are plenty of pictures which makes up for that. If you are looking for sexy outfits and sexy gals you won't find too many.... BUT if your looking to learn to increase your overall knowledge of how to draw the female body and provocative situational pictures this is the book for you. I can say if you practice drawing what you see in this book, you will be very good at drawing females. This book had many pictures which helped me alot.

This book was really helpful, but this book is not for those how don't already know the basic skills and structure. This book shows a bit much mature content, so this book is recommended to those in the appropriate age group. Overall this book can help you draw all the basic components into

drawing sexy women, if you didn't know how to do already, and other mature content. Again if you do not have the right skill and drawing structure needed, then this book is not for you but if you do then I recommend this book.

Showed new ideas on how to draw

Before I say anything, NOT FOR THE CHILDREN! This book will teach you a lot about the anatomy of seductive girls, I am a pretty experienced artist and normally I go for more modest approach, but this book was the perfect tutorial for me as far as this genre goes. Not a beginner book, but if you know your material and can produce good pieces then this book is for you. And there was this very good mini comic through out the book, Anyone who is mature in the "field" will enjoy the story the comic tells as well

This type of art is something I've looked for a long time. It is unfortunate that it was hidden among erotica that I accidentally stumbled into. This book has some really good posing and composition tips and the author could polish his/her presentation to put it into another category so it is easier to find

its a good book if your trying to make a hentai or ecchi manga, it covers the female body, facial expressions, drawing various erotic hard to draw angles, and love-making scenes..its rated Mature, not for kids...all and all i got some info out of this book like how to draw certain, err, parts of the female body and poses...however its only useful if you wanna draw hentai or ecchi...

I have several different books of Manga drawing, some great and some not so great. I put this one near the upper third on that scale. Not much in the way of new techniques or insights, but solid stuff never the less. I would say if you can get this book for a good price (under \$13 or so) it is worth the investment.
